ADITYA Pratama Putra

UI/UX & Brand Identity Specialist | Leveraging AI to Streamline Workflows

Greater Surabaya

Summary

I am a designer focused on integrating digital system with visual aesthetics to create impactful, functional solutions. Specializing in UI/UX Design, Brand Design, and Graphic Design, I am deeply committed to transforming complex ideas into intuitive interfaces and brand identities that hold a strong position in the market. My deep understanding of system structures allows me to view every project through the lens of functionality and technical effectiveness, going beyond mere visual aspects. In every work process, I rely on critical thinking and high adaptability to systematically solve design challenges, ensuring that every interaction delivers real value to users. I prioritize collaboration rooted in empathy and open-mindedness as the foundation for achieving optimal results that support business acceleration within a dynamic digital ecosystem. Through a commitment to precision and attention to detail, I am ready to serve as a strategic partner in delivering digital solutions that are relevant, efficient, and fully focused on meaningful human experiences.
